ABOUT ME

- Hi there, my name is Amr Magdy and I am a full-stack developer with expertise in the MERN stack and a strong knowledge of JavaScript. I specialize in building scalable and efficient web applications using modern web technologies.
- I have built several websites with extensive functionality, including an e-commerce site, admin panels, a restaurant website, and much more.
- I always develop my skills and search for new technology to learn.

EXPERIENCE

React Developer
Electronic systems for software programming

📅 March 1 – Onging   📍 June 1 – end

From Home
- It was a short training but I learned a lot.
- Learned how to work in a team.
- worked with React.js, bootstrap, and redux.
- I was always doing more than what I was asked to do.

- -

Full Stack Developer
En. Hamza Bahaa

📅 june 22 – Onging   📍 Still working

From Home
- I'm working on projects with a front-end developer.
- I'm doing the backend and some of the front end.
- I created this admin panel for the project:
  🌐 nayer-adminpanel.netlify.app   * contact me to make you admin so you can login and see it inside.
- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/detals-admin-panel
  It's private so contact me to allow you to see the code.
- I was working with typescript, React.js, bootstrap, redux, Node.js, Express, and MongoDB.
- In the main site I added redux to get, store the data, and make the site dynamic, and I implemented before and after to work as expected.

MY LIFE PHILOSOPHY

""Studying is the only way to reach success and achieve your goals, so do not hesitate to invest in yourself and your time, and do not stop studying until you reach what you want to achieve. Always remember that everything you do today will affect your future, so make studying and learning a part of your daily life to achieve your future goals."

MOST PROUD OF

Creating An Amazon Clone:
I built a Real superstore with all the functionality that might be needed in building any website.

- -

Become a Professional Problem Solver:
There are many reasons to say I'm a good Problem Solver; I'm a really good one, I'm so smart, I have the ability to find errors in a very short time, and I always search for better Alternatives.

- -

Mastering Typescript:
At the beginning, I found it challenging, especially given the relatively small size of the TypeScript developer community..

- -

Mastering the American Accent
I improved my English a lot so I was able to learn from foreigners.

STRENGTHS

Typing speed of 60 wpm	Eye for detail
Problem Solving	Speed Learning
Hard Working	Innovation	Material UI
typeScript	JavaScript	Redux
React.js	Express	Node.js
Bootstrap	SASS	html	CSS

EDUCATION

- Here's the Main site url: 🌐 main-dentails.netlify.app
- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/dentals-main
  It's private so contact me to allow you to see the code.

MY OWN PROJECTS

Amazon Super Store website: (full Mern)

- Check the preview for the project from here the link : 🌐 superstore-frontend.netlify.app
  I deployed the server on a free host so you might not get the products and other data from the first time so reload the web or close it and open it again. "I'm still working on it some issues in design are pending and didn't make responsive yet".
- I worked with typescript, React.js, bootstrap, React-helmet, redux, Node.js, Express, and MongoDB.
- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/super-store-front-end
  It's private so contact me to allow you to see the code.

Store Admin-panel: (Full Mern)

- Here's a preview of the project :
  🌐 adminpanel-store.netlify.app   * contact me to make you admin so you can login and see it inside.
- I worked with typescript, React.js, bootstrap, React-helmet, redux, Node.js, Express, and MongoDB.
- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/super-store-admin-panel
  It's private so contact me to allow you to see the code.

My Notes App application: (full Mern)

- Here's a preview of the project, the design is mine: 🌐 my-simplenotesapp.netlify.app
- I worked with typescript, React.js, Bootstrap, Node.js, Express, and MongoDB.
- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/My-Notes
  It's private so contact me to allow you to see the code.

Finance DashBoard: (full Mern)

- I used Artificial intelligence with typescript
- Here's a preview of the project:
  🌐 finance-adminpanel.netlify.app
- I worked with typescript, Redux, Material UI, React.js, Node.js, Express, and MongoDB.

Civil Engineering
Al-Safwa High Institue of Engineering

📅 Sept 2018 – June 2023

Responsive Web Design
freeCodeCamp

📅 November 2022 – January 2023

JavaScritp Algorithms and Data Structures
freeCodeCamp

📅 January 2023 – February 2023

Programming with JavaScript
Coursera

📅 Sept 2018 – June 2023

SKILLS I HAVE RECENTLY - - - - - - - - ACQUIRED.

Strong knowledge of TypeScript

Strong knowledge of Node.js and Express

Mastering Redux With React And Typescript

A DAY OF MY LIFE

- Learning New Things
- Spending Time with family
- Sports
- Sleep, beautiful sleep
- Building Projects for practicing

- Here's the GitHub repository:
  🌐 github.com/amrmagdygamal/Finance-Dashboard
  It's private so contact me to allow you to see the code.

My Portfolio: (front-end responsive website)

- I created it before I become a FUll-Stack Developer
- Here's a preview of the project:
  🌐 amr-portfolio.web.app
- I worked with React.js.
- Here's Github repository:
  🌐 github.com/amrmagdygamal/amr-Portfolio

Responsive Front-End awesome Project

- Creative Agency (built with javascript) :
  🌐 amrmagdygamal.github.io/creative-agency
- I worked with JavaScript, html, css, and Bootstrap.
- Here's Github repository:
  🌐 github.com/amrmagdygamal/creative-agency

- Bondi Design with bootstrap :
  🌐 amrmagdygamal.github.io/bondi_Design
- Here's Github repository:
  🌐 github.com/amrmagdygamal/bondi_Design

- Awesome gpt3 design responsive website :
  🌐 gpt3-design-amr.netlify.app
- Here's Github repository:
  🌐 github.com/amrmagdygamal/gpt3_Design-amr

- My Portfolio With javaScript :
  🌐 amrmagdygamal.github.io/My-Simple_portfolio-withJavaS
- Here's Github repository:
